The new World Wide Banks

WideBank

We are a financial institution fully compliant with the current legal frameworks, and gold standards in terms of governance and business logics. But that's just what we do in order to deliver on what counts to us, which is what's a bank to each of you. We know very well that the answer to this question depends on how our lives develop, and is bound to change over time, following the scale of our experiences, and the evolution of technologies, and regulations.

WideBank strives to make it as easy as possible for all to approach one's own financial life and planning without effort.

Escalation is one of the keywords.
